(a) Prerequisite graph
5 Evidence claim boundaries
3 Therapeutic decision framing
3 Biological representations
2 Licence and permitted use
1 Docking score and rescoring
2 Model table construction
2 Ridge fitting and validation
1 Metric estimand and uncertainty
1 Regression and classification errors
1 Ranking and decision thresholds
Core route 25
Small molecules 29
Targets and cells 16
Biologics 15
Structure and physics 12
Agents and feedback 12
prerequisite
listed in core route
